

PLEASE JOIN US FOR A CRITICAL COMMUNITY CONVERSATION:

SMART WATER METERS, WI-FI, 5G HAZARDS & BETTER TECHNOLOGY SOLUTIONS

WEDNESDAY, MARCH 9, 2022 6:30 P.M.

HOST: CECE DOUCETTE, DIRECTOR, MASSACHUSETTS FOR SAFE TECHNOLOGY
NORTHBOROUGH PUBLIC LIBRARY, 34 MAIN STREET, PARKING OUT BACK ON PATTY LANE

The [U.S. National Toxicology Program](#) has found cell phone radiation causes cancer and DNA damage. Additional [peer-reviewed, published studies](#) link wireless radiation to our growing rates of insomnia, headaches, nose bleeds, nausea, pain, cognitive impairment, fatigue, behavior issues, learning disabilities, autism, anxiety, depression, neurotoxicity, digital addiction, infertility and more.

This type of radiation is constantly pulsed from our own wi-fi devices, routers, utility “smart” meters, cell towers and now **the new close-range 4G/5G small cell antennas** – unless we develop strategies to access technology safely.

[Cece Doucette](#) has helped introduce legislation in [New Hampshire](#) and [Massachusetts](#) to educate and protect the public. Additionally, her school district in Ashland, MA, is the [first in the nation](#) to begin safeguarding students and staff.

Please join us to discuss this timely issue with Cece. In preparation we suggest you:

- Watch the award-winning film [Generation Zapped](#) (free via the library’s subscriptions to [Kanopy](#) and [Hoopla](#), or download for a small fee [at GenerationZapped.com](#)) and/or
- Take the quick [Schools & Families Course](#) from the non-profit Wireless Education

Cece will walk us through the issue, answer questions, and demonstrate radiation emissions from wireless technology. We’ll share steps others are taking to ensure safe, fast, sustainable technology in their communities. You’ll also walk away with simple strategies you and your loved ones can use today with your own devices to still access today’s technology – but much more safely.

IF YOU ARE UNABLE TO ATTEND BUT WOULD LIKE TO JOIN ANOTHER CONVERSATION, OR PERHAPS HOST ONE OF YOUR OWN,
PLEASE CONTACT CECE AT MA4SAFETECH@GMAIL.COM. THANK YOU.
